

## Our services

-  High quality building materials
-  Design and engineering support
-  Full assemblies or kit solutions
-  Onsite installation
-  Fast delivery to the global community

## Lifting and Positioning Systems

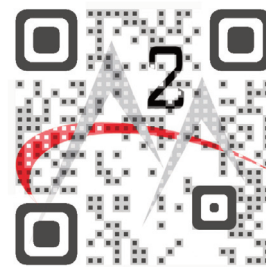

- Flexible
- Knowledgeable
- Individual
- Motivated

## Lifting and positioning systems

Ergoswiss is the market leader in lifting and positioning systems. They offer flexible solutions and systems for various designs and industries. The precision Swiss made single action, hydraulic or electric spindle driven system has clear advantages over conventional systems. Lift, position or tilt new or existing structures to achieve the ergonomic height - solutions for **everyBODY!**

## Lift – Tilt – Position – Level – Secure

Hydraulic and Electric Spindle driven systems for all applications. Use up to 10 lifting elements simultaneously. 150 mm (6") up to 700 mm (27.55") lifting stroke. 150 kg (330 Lbs) up to 1,000 kg (2,200 Lbs) lifting capacity including high safety factor

Cylinder

Add on - Linear

Lifting column and table legs

## Applications

The right solution for your requirements! Small footprint – Strength – Versatility
